

Dear Dr Li,

I am writing to express my sincere thanks to you for your excellent acupuncture treatment during my third IVF cycle and beyond.

At age 41, following years of trying to conceive, I am confident that I am six weeks pregnant as a direct result of your intervention during my IVF cycle. The IVF Clinic commented that my progress throughout the treatment cycle was excellent, and I put this down to the fact that your acupuncture treatment increased the blood flow to my womb and aided my general wellbeing. Throughout the treatment, you supported and encouraged me, and made the whole experience less stressful.

Your calm professionalism and caring nature has reassured me throughout, and I would have no hesitation in recommending you.

Thank you again for your assistance and support, which has been instrumental to my success at IVF.

With kindest regards.

Yours sincerely

ANN BURNS
